Profile

Innovative Frontend Developer, experienced in building and maintaining responsive websites. As someone who enjoys finding solutions to difficult problems, software development was an obvious path.

Skill Highlights

- HTML, CSS, JavaScript
- React, Redux, React Native, Node js, MongoDB, Sass, Material UI, Git, Github
- Adobe XD, Postman

- Clear Communicator
- Innovative Problem Solver
- Attention to Details

Projects

Food Ordering System(2021):
  A food ordering website built on the MERN stack, where registered users can order for food from a particular restaurant. It also has user profile page where user can edit profile information and see order history

github: https://github.com/theophilly/food-ordering-app

Advice Box(2021):
  Web app built on the MERN (MongoDB, Express, React, Node) stack of web development. It uses Redux for the state management and Chakra UI as component library. A mini forum created with the intention of allowing registered users drop advices under different advice categories.
url : http://advicebox.herokuapp.com/
github: https://github.com/theophilly/advice-box-mern

My Music Playlist(2021):
  A music player built from scratch with html css and vanilla javascript on the front end and a Node Express server on the backend. Its built to house my favourite songs and play some while coding. The songs data are fetched from an Express server.
url : https://myplaylistonline.netlify.app/
github: https://github.com/theophilly/my-playlist-frontend   -frontend
         https://github.com/theophilly/music-player-backend   -backend

Education

Mastering React | Code with Mosh

Mosh Hamedani – Dec 2020

The Complete Node.js Course | Code with Mosh

Mosh Hamedani – Aug 2020

Federal Polytechnic Offa, Kwara State.

HND. Computer Science

2014 – 2020
